## Beados Design Tips

- Too much water on design will make the beads sticky and requires a much longer drying time.
- The surface of the design should be dry to touch before removing from tray.
- Gently sliding a card underneath the design will help remove it easily.
- Leave design to dry overnight for a stronger join.
- To make the design stronger spray water on reverse side of final design.
- Place your dried Beados designs underneath a book to flatten designs.
- Make sure you hands are dry when touching the beads. If wet beads stick to fingers please wash hands with soap and water.
- Wash tray well after use with warm soapy water and dry before next use.

## Removing Beads

Use your bead removal tool as shown to pick up incorrectly placed beads. Tip: To clean bead removal tool wash in warm soapy water and allow to dry.
