Beados Design Tips

- Placing near open window or fan will speed up drying time.
- If the Beados beads after spray are not stuck together, respray and allow to dry.
- To make the design stronger spray water on reverse side of final design.
- Place your dried Beados designs underneath a book to flatten designs.
- Make sure you hands are dry when touching the beads. If wet beads stick to fingers please wash hands with soap and water.
- Wash tray well after use with warm soapy water and dry before next use.
- Too much water will not join the Beados together-please remember to lightly spray the beads.
